How certification works

1 Application and quote

Tell us your scope, sites and headcount. We confirm the audit days and send a written quote.

2 Stage 1 audit

A readiness review of your documentation, scope and planning. Any gaps are flagged before the main audit.

3 Stage 2 audit

An assessment of whether your system is implemented and effective, on site or remotely where allowed.

4 Certification decision

An independent reviewer checks the audit file. Your certificate is issued and added to the online register.

5 Surveillance audits

Shorter audits in years one and two confirm that your system continues to work.

6 Re-certification

A full re-assessment before expiry renews your certificate for another three-year cycle.

Every certificate can be checked online

Each QELITE certificate carries a QR code and a unique number. Anyone can confirm its current status on our online register at qelite.in/verify.
